Serge Bodart of IDDI provides insight on the pharma and biopharma trends impacting CROs, outsourcing in today's market, and advances in clinical research.

The Covid-19 pandemic is having a significant impact on CROs and clinical trials resulting in trial suspensions, terminations and delays. The global crisis has also stressed the need for virtual trials leveraging technology and software solutions. Increased adoption of eClinical solutions, Artificial Intelligence, machine learning-based platforms, and innovative trial designs, is expected to transform the CRO landscape over the next few years....
