

Final Announcement: "Precision medicine in drug development"

Tuesday June 4, 2019

Allschwil (Basel)

Precision medicine aims to tailor disease prevention, diagnosis and treatment to the individual patient, based on their individual features extracted from multiple types of data (such as multi-omics, imaging, patient history, lifestyle and environmental factors).

Advances in screening platforms and the availability of big data are fueling the scientific progress in precision medicine, spanning the early stage of drug discovery all the way through translation into clinical practice. Adequate use of statistical and computational methods are critical to its successful implementation in clinics.

The Basel Biometric Section (BBS) and the European Federation of Statisticians in the Pharmaceutical Industry (EFSPI) are pleased to host a European scientific meeting on this relevant and far-reaching topic. The purpose is to bring together experts from the pharmaceutical industry, academia and the European regulatory bodies to present the current state of the art and discuss the challenges and opportunities ahead.

9.00 am - 5.00 pm

Stephen Senn Edinburgh, UK	Precision medicine: The honeymoon is over. It's high time for tough love.
Tomasz Burzykowski IDDI & Hasselt Univ., Belgium	Generalized pairwise comparisons for precision medicine
Niko Beerenwinkel ETH Zurich, Switzerland	Bioinformatics for precision oncology
Mario Ouwens Astra Zeneca, Sweden	Difficulties with network meta-analysis when starting to use PDL1 thresholds
Jack Kuipers ETH Zurich and SIB Lausanne, Switzerland	TBD
Georgina Bermann Novartis, Switzerland	Cardiovascular medicine: approaches to the use of early biomarker response to identify a patient subgroup with enhanced therapeutic benefit
Adam Heathfield Pfizer, UK	Valuation of Regenerative Medicine/ Advance Therapeutics (RM/ATs): Challenges and opportunities for creating a better framework
Laurent Essioux Roche, Switzerland	Examples of personalized Healthcare at Roche: statistical perspectives

Venue

Actelion Pharmaceuticals,
Hegenheimermattweg 95,
Allschwil,
Switzerland

Registration

On or before 7 May 2019
Industry rate: €150.00
Academic rate: €75.00

After 7 May 2019
Industry rate: €200.00
Academic rate: €100.00

Students: a limited number of places is available free of charge, please contact the organisers.

Fee includes lunch & refreshments

TO REGISTER PLEASE GO TO:

www.efspi.org
