

# Biostatistics

**Advanced Statistical Methodology  
and Operational Excellence That Turn  
Complex Data Into Clinical Clarity**

Biostatistics is in our DNA, at the heart of everything we do.

By embedding biostatistics into every step, we elevate study design, protocol development, clinical data collection, data analysis, and reporting – producing **trial results that are scientifically accurate, validated, and reproducible.**

## Scientific Roots to Keep you Ahead of Challenges

- With in-depth clinical and regulatory experience, our team understands your scientific issues to anticipate and overcome roadblocks.

## Research to Keep you on the Cutting Edge

- We devote a portion of our revenue to the research & deployment of innovative statistical methodology.
- Strong collaboration with academics and key opinion leaders further elevates our research.

## Methodological Excellence to Ensure Quality at Every Step

- Our in-depth experience in a range of therapeutic areas and our profound understanding of ICH GCP, regulatory requirements, and ADaM analysis datasets maintain accuracy and integrity throughout your trial.

# Complete Range of Premium Biostatistics Services

Support superior market differentiation and data-driven decisions with services including:

## Advanced Biostatistical Analysis

Turn your data into meaningful insights.

## Interim Analysis – IDMC

Unbiased analyses and IDMC support to ensure quality and safety.

## Data Standards – ADaM Implementation

CDISC-compliant datasets to simplify your journey to regulatory submission.

## Pharmacokinetics and Pharmacodynamics (PK/PD)

Ground your results in proven science and statistics to mitigate risk.

## Net Treatment Benefit (NTB)

Pave the way for more patient-centric medicine with a statistical method that accounts for multiple endpoints ranked in order of priority by physicians and/or patients.

## Partner With IDDI for Uncompromising Excellence in Biostatistics

IDDI is a trusted clinical data science partner. With 35+ years of research-driven experience, we combine therapeutic expertise, biostatistical leadership, and regulatory insight to mitigate risk from design to registration and beyond. We deliver uncompromising excellence in biostatistics, strategic consulting, clinical data management, IDMCs, and supporting eClinical technologies, because when every data point represents a patient, perfection is the only option.
