COMPREHENSIVE DATA MANAGEMENT SOLUTIONS

End-to-end Data Management ensuring **Quality Data ready for Submission**

FOCUSING ON THE ACCURACY OF YOUR CLINICAL DATA

Our team of data managers are committed to upholding a standardized, process-driven approach delivering timely, accurate and quality data.

Whether you need clinical data management services as a stand-alone, part of a full-service or full functional outsourcing, we can tailor customized clinical data management services to meet your needs.

Comprehensive Data Management Support

From database set-up, through cleaning and reporting, to database lock using regulatory-compliant tools.

Focusing on the integrity of your data

Electronic Data Capture - EDC

- eCRF set-up:
  - ID-base™ (Marvin powered by XClinical) and
  - Rave (powered by Medidata).

Enabling seamless data flow. Improving the speed of your trials

Data Conversion to CDISC SDTM Standards

- CDISC Registered Solutions Provider
- Professional expertise for the conversion of clinical data to CDISC SDTM standards.

Ensuring clinical data ready for submission

Medical Coding

- MedDRA, WHO-DDE with IDDI's proprietary web system: ID-code classifying safety-related data

Improving Clinical Data Consistency

Experienced Data Managers

- With a scientific background.
- Dedicated to each study from database set-up to database lock.
- Broad experience covering all phases & therapeutic areas.

- Experts in Rave and ID-base electronic data capture (EDC) systems, but also familiar with other EDC systems.
- Specialists in CDISC (SDTM-ADaM)
